

Putro Dwi Mulyo Fullstack Web Developer

Bekasi, Indonesia | Phone: 0819 0895 9289
Email: putrodwi31@gmail.com

PROFILE

I am a Fullstack Web Developer and Informatics Engineering graduate with a proven track record of leading website development projects and active involvement in organizational initiatives. Skilled in team leadership and web development (Typescript, PHP, JavaScript frameworks, and Go). Passionate about leveraging my technical expertise to drive innovative projects.

EDUCATION

Bina Insani University — Bachelor of Informatics Engineering (Graduated)

GPA: 3.93 / 4.00

2021 – 2025

PROFESSIONAL EXPERIENCE

Bina Insani University – Bekasi, Indonesia

IT Staff – Fullstack Web Developer

March 2025 – Present

- Develop and maintain internal university applications using Node.js, Express, Hono React, and Golang.
- Build scalable backend APIs and implement secure authentication flows (JWT).
- Deploy applications using Docker, Docker Compose, and Nginx Reverse Proxy.
- Manage development, staging, and production environments.
- Perform performance tuning, troubleshooting, logging, and monitoring for backend and frontend systems.

Bina Insani University – Bekasi, Indonesia

Web Developer Intern

October 2023 – March 2025

- Developed responsive web applications using CodeIgniter (PHP), MySQL, and JavaScript.
- Implemented UI/UX interfaces that are modern, responsive, and mobile-friendly.
- Performed containerized deployment using Docker and basic server configuration.
- Assisted in maintaining and enhancing existing internal systems.

SIB Dicoding x Kampus Merdeka Cycle 6 – Dicoding, Indonesia
